

## Day Trip to Tha-Ka Community and Amphawa District, Samut Songkhram Province

On October 27, 2018, Tourism Management Program had a one-day trip to Thaka Community, Amphawa District, Samut Songkhram Province. The trip was held for the students who have studied about tourism planning and development, and the community-based tourism. The aim of the trip was to let the students interact with local people in the local neighborhood of Samut Songkhram Province through workshops. The activities helped develop different viewpoints towards how local materials and wisdoms can be utilized in the form of cultural and agricultural – based tourism. The students joined 3 workshops including weaving from coconut leaves, visiting the learning center about how to produce coconut sugar and crafting small boats and dolls from coconut materials.
